The main cabin, view aft. The aft berth has a port overhead for light and ventilation.

The galley contains a large insulated icebox, two-burner recessed stove, a sink with chopping block insert and fresh water system, storage is behind, above and below the galley counter.

The main cabin, view forward. The drop leaf table accommodates six for meals.

The CAPRI 26

The Capri 26 recognizes the needs of today's sailors. Leisure time is valuable and for those who know the joy of sailing, it must be spent on the water with family, friends and a boat that is fast, fun and satisfying to sail.

The Capri 26 cockpit will daysail a group with the comfort of most larger boats. The cabin accommodates social hour in yachting style.

When the guests go home and the family retreats to a quiet cove, or just below for the night, there is room to play board games, stretch out and relax, read, cook and sleep without feeling like you're camping out.

There is an oversized double berth aft and a bunk for the kids forward. The whole main cabin seating area can be converted to a huge berth or just a great place to lounge below.

The Capri 26 has been carefully engineered for performance with a state-of-the-art rig, wing or fin keels, and an elliptical rudder.

The Capri 26 is built for durability and value with hand lamination, cast lead ballast, stainless steel fastenings, anodized spars and teak interiors.

The true test of a sailboat design is how much fun it is to sail, to be aboard, to own. These tests the Capri 26 passes with flying colors.

The head compartment has a vanity counter, medicine cabinet and an opening port for ventilation.

The vee berth is perfect for kids, or can be used for storage by day.

Designed for the 90's
The performance you want and the space you need.
